In January 2016, Russia produced 5.6 Mt of crude steel, down by -10.6% over January 2015. Ukraine produced 1.9 Mt of crude steel, up by 3.6% compared to the same month 2015.

The US produced 6.6 Mt of crude steel in January 2016, a decrease of -8.8% compared to January 2015.

Brazil's crude steel production for January 2016 was 2.5 Mt, down by -17.9% on January 2015.

The crude steel capacity utilisation ratio of the 66 countries in January 2016 was 66.0%. This is -5.8 percentage points lower than January 2015. Compared to December 2015, it is 0.8 percentage point higher.

Notes to Editors:
• The World Steel Association (worldsteel) is one of the largest and most dynamic industry associations in the world. Worldsteel members represent approximately 85% of the world’s steel production, including over 150 steel producers with 9 of the 10 largest steel companies, national and regional steel industry associations, and steel research institutes.
• The monthly crude steel capacity utilisation ratio is calculated based on crude steel production information available at worldsteel and OECD capacity estimates.
• * China’s January production figure is an estimate provided by CISA.
