Notes to Editors:

• The World Steel Association (worldsteel) is one of the largest and most dynamic industry associations in the world. worldsteel members represent approximately 85% of the world’s steel production, including over 150 steel producers with 9 of the 10 largest steel companies, national and regional steel industry associations, and steel research institutes.

• The monthly crude steel capacity utilisation ratio is calculated based on crude steel production information available at worldsteel and OECD capacity estimates.
