In November 2016, Russia produced 6.0 Mt of crude steel, up by 5.0% on November 2015. Ukraine produced 2.0 Mt of crude steel, up by 3.1% compared to the same month in 2015.

The United States produced 6.2 Mt of crude steel in November 2016, an increase of 6.8% compared to November 2015.

Brazil’s crude steel production for November 2016 was 2.4 Mt, down by 4.8% on November 2015.

The crude steel capacity utilisation ratio of the 66 countries in November 2016 was 69.6%. It was 67.1% in November 2015. The November 2016 capacity utilisation ratio is 0.1 percentage point lower than the October 2016 ratio.

Notes to Editors:

- The World Steel Association (worldsteel) is one of the largest and most dynamic industry associations in the world. worldsteel members represent approximately 85% of the world’s steel production, including over 160 steel producers with 9 of the 10 largest steel companies, national and regional steel industry associations, and steel research institutes.

- The monthly crude steel capacity utilisation ratio is calculated based on crude steel production information available at worldsteel and OECD capacity estimates.
